

NEWS & STORY SUBMISSION

Have you got a news update or story to tell? Have you and your school been involved in or experienced something great in connection to the Hydrogen industry? Submit a story for inclusion on our website.

Published articles will also be shared with others on social media and in email updates. Simply complete the following and email your submission to GISP.

Did you take any photos or videos? Please send these through too and remember to ask those in your photos if it's ok to share their image with us.

ABOUT YOU

Your name: _____

GISPH2 School: _____

Position title: _____ Year level: _____

YOUR STORY

Tell us about what you experienced/learned?

Tips:

- Start by setting the scene. Tell your readers who you are and the purpose of your trip/activity. Next, tell us what you learnt/saw/did and the value or benefit it provided to you/the students/your teachings
- Do you recall someone saying something interesting? Maybe a student commented on how great the activity was? Personal comments/testimonials and accounts are great to include.
- Keep the tone of your writing relaxed and casual, like if you are talking to someone at work.
- Did anything surprise you? Perhaps you learnt something that challenged your thinking or previous beliefs/understandings.
- Is there a special piece of learning to share with the GISPH2 network?
- Did your learnings provide evidence and industry insights?
- To finish, what would you suggest/recommend to other teachers/students? Was there a key take-away you would share with the network either industry or schools?

[PLEASE WRITE YOUR STORY HERE]
